60 FREIGHT CREWS

O. R. & N. SYSTEM IS RUSHED
AS NEVER BEFORE.

La Grande Division is Now Working 40 Freight Engines, a Greater Number Than Was Used When the Union Pacific Had the Road Leased 12 Years Ago—Lumber, Coal, Ore, Wheat, Merchandise and Oriental Shipments Make Up the Traffic.

Sixty freight engine crews now working overtime on the Mountain division, trying to handle the heavy traffic of the past three months, is the highest record ever made by the O. R. & N. system on this division.

The number of engines now in use in the freight service out of La Grande is more than 40, and these are going night and day—this being a greater number than was used by the Union Pacific when it held a lease on the O. R. & N. 12 years ago, in the palmy period of the best days of rail-roading on the O. R. & N. system.

New engines have been received at La Grande, Union Pacific and Short Line engines have been borrowed, and pressed into service and every available means of adding to the power has been resorted to, within the past 90 days, in an effort to meet the crowding volume of traffic.

Crews are working overtime, engines cannot be held in the shops long enough to make the necessary repairs, and the force of machinists and engine men has been added to until a small army of workers is now swarming at the round houses and shops at La Grande.

Ordinarily at this time of the year, extra men have found work on the Mountain division very dull, and many of the transient engineers, firemen and brakemen leave for other roads, but this fall new men are being promoted, hired and transferred, in order to fill the crews that are needed to handle the heavy business.

The principal items that have swelled the traffic this fall are the heavy lumber shipments, ore, wheat and Oriental goods to the East, and

We Paid \$100,000

For Liquozone—Yet We Give You a 50c. Bottle Free.

This Company, after testing Liquozone for two years in the most difficult germ diseases, paid \$100,000 for the American rights. That is by far the highest price ever paid for similar rights on any scientific discovery.

We publish this fact to show you the value of Liquozone. Men of our class don't pay a price like that save for a product of remarkable worth to humanity.

Kills Inside Germs.

The reason for that price is this: Liquozone alone can kill germs in the body without killing the tissues too. Nothing else in the world is so good for the human body; yet Liquozone is a germicide so certain that we publish on every bottle an offer of \$1,000 for a germ that it cannot kill.

Liquozone destroys at once and forever the cause of any germ disease. And there is no other way to do it. Any drug that kills germs is a poison, and it cannot be taken internally. Medicine is helpless in troubles of this kind.

Not Medicine.

Liquozone is not made by compounding drugs. Its virtues are derived solely from gas, made in large part from the best oxygen producers. By a process requiring immense apparatus and 14 days' time, this gas is made part of the liquid product. Liquozone has, for more than 20 years, been the con-

stant subject of scientific and chemical research.

The result is a product that does what oxygen does. Oxygen is the very source of all vitality, the most essential element of life. Liquozone is a vitalizing tonic with which no other known product can compare. Its effects are exhilarating and purifying. But germs are vegetables; and Liquozone—like an excess of oxygen—is deadly to vegetable matter.

Liquozone goes wherever the blood goes, destroying every germ in the body. In this way it cures diseases which medicine never cures. It will do more for sick humanity than all the drugs in the world combined.

Germ Diseases.

These are the known germ diseases. All that medicine can do for these troubles is to help Nature overcome the germs, and such results are indirect and uncertain. Liquozone kills the germs, wherever they are, and the results are inevitable. By destroying the cause of the trouble, it invariably ends the disease, and forever.

Not a Sick Day Since.

"I was taken severely sick with kidney trouble. I tried all sorts of medicines, none of which relieved me. One day I saw an ad of your Electric Bitters and determined to try that. After taking a few doses I felt relieved, and soon thereafter was entirely cured, and have not seen a sick day since. Neighbors of mine have been cured of rheumatism, neuralgia, liver and kidney troubles and general debility." This is what B. F. Bass of Fremont, N. C., writes. Only 50c at Tallman & Co.'s, druggists.
